

RV Packing / Shopping List

This list can only be a starting point. . There cannot possibly be a single checklist that is going to serve all folks, and all ways of going. Tinker with it until it fits the way you do things.

Then, you will have, *your*, perfect checklist.

There are more things that will come to you, I'm sure. Maybe the organization needs to be jiggled around to suit you. Just make the changes and let somebody know 'they' forgot 'em off the list in the first place! :-)
